

Good day, everyone,

I've received quite a few messages about this Drive link, which I found rather amusing. Appreciate your patience! I was occupied with a few work commitments, so I couldn't share the link as promptly as I would have liked.

Please keep the following points in mind before sending an access request:

- ❖ Access will only be granted to requests made using your **varsity** email.
- ❖ Wait at least **6 hours** after sending an access request before sending another if access is not granted immediately.
- ❖ The files are strictly for educational purposes.
- ❖ Do not discuss the syllabus with any Professors. Our syllabus may differ from yours.
- ❖ Do not alter the copyright information under any circumstances.
- ❖ If you find any mistakes in the resources, please correct them yourself. The author is not liable for any errors.
- ❖ Pass on this drive link to your juniors after your semester ends.
- ❖ **Send your access requests by May 3rd, 2026, at 11:59 PM.**
- ❖ If you don't receive access before the deadline, mail me with a valid reason for the delay. Ensure your email includes a proper subject line; otherwise, I may not be able to respond.

I look forward to your cooperation and wish you the best in your studies!

Thank you.
